# TriTech

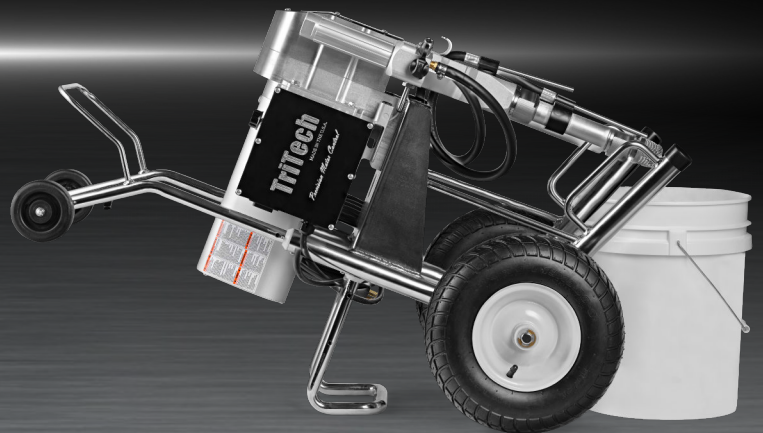

MADE IN THE U.S.A.

Are you working on large scale residential, commercial or industrial projects? The NEW TriTech T15 has the power and performance you need to get the job done. As with all TriTech pumps, the T15 is made from the same military grade metals and alloys for extreme durability and longevity. It features our PMC Precision Motor Control for the most precise pressure control in the industry and a fluid manifold that will never rust! TriTech is a name you can count on!

## **LOADER CARTS** Patent Pending

EZ Loader Carts from TriTech allow one person to load and unload our heavier airless pumps to and from your truck with ease. This new cart is also capable of holding up to 300' of airless hose. The unique kickstand feature allows the unit to be tipped back for easy maintenance, cleaning and bucket changes!

## T15 AIRLESS SPRAYER
